DROUGHT CONTINGENCY PLAN ADOPTED 9/18/2023.

SECTION I: Declaration of Policy and Intent

In order to conserve the available water supply and protect the integrity of water supply facilities, with particular regard for domestic water use, sanitations, and fire protection, and to protect public health, welfare, and safety and minimize the adverse impacts of water supply shortage or other water emergency conditions, the Victoria Count WCID 2 adopts the following regulations and restrictions on the delivery and consumption of water.

Water uses regulated or prohibited under this Drought Contingency Plan (the Plan) are non-essential and continuation of such uses during times of water shortage or other emergency water supply condition are deemed to constitute a waste of water which subject the offender(s) to penalties.

Victoria County Water Control and Improvement District 2's four (4) stage Drought Contingency Plan is explained in this booklet. The drought contingency plan is an attempt to distribute water adequately and equally to each resident/customer, even during times when the supply may be lowered due to weather conditions and/or mechanical failures. Please keep this information for your reference. Become familiar with the enclosed Drought Contingency Plan and please comply with the stages in the event they must be implemented.

The four (4) stages of the drought contingency plan are:

STAGE REFERENCE	COLOR CODE	ACTION	DAY OF USE
A STAGE ONE (1)	GREEN	VOLUNTARY	NO RESTRICTIONS
B. STAGE TWO (2)	YELLOW	ODD/EVEN ADDRESSES	THREE TIMES A WEEK
C. STAGE THREE (3)	ORANGE	DESIGNATED ZONES	WEEKLY
D. STAGE FOUR (4)	RED	OUTSIDE WATERING	PROHIBITED

Color-codes signs to designate the **CURRENT STAGE** in effect will be located at (1) Grab N Go, (2) US Post Office, (3) Water District Office. Please watch for any sign changes. A map showing the sign locations is included in this booklet. Any questions should be directed to Victoria County Water Control and Improvement District 2's office at (361) 237-1066 from 8:00 am to 5:00 pm Mondays, Tuesdays, Wednesdays, and Fridays or in person at 91 Preston Street on Mondays, Tuesdays, Wednesdays, and Fridays from 8:00 am to 5:00 pm.

SECTION II: Public Involvement

Opportunity for the public to input into the preparation of the Plan was provided by the Victoria County Water Control and Improvement District 2 by means of the monthly Board of Directors Meeting and utility bills.

SECTION III: Public Education

Victoria County Water Control and Improvement District 2 will periodically provide the public with information about the Plan, including information about the conditions under which stage of the Plan is to be initiated or terminated and the drought responses measures to be implemented in each stage. This information will be provided to the public by means of utility bills.

SECTION IV: Coordination with Regional Planning Groups

The services of the Victoria County Water Control and Improvement District 2 are located with the South-Central Texas Regional Water Planning Area and the Victoria County Water Control and Improvement District 2 has provided a copy of the plan to the San Antonio River Authority.

SECTION V: Authorization

The District Operator or his/her designee is hereby authorized and directed to implement the applicable provisions of the Plan upon determination that such implementation is necessary to protect public health, safety and welfare. The District Operator or his/her designee shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this Plan.

SECTION VI: Application

The District Operator or his/her designee is hereby authorized and directed to implement the applicable provisions of the Plan upon determination that such implementation is necessary to protect public health, safety and welfare. The District Operator or his/her designee shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this Plan.

ALTERNATIVE WATER SOURCES

Victoria County Water Control and Improvement District 2 is 14 miles from the nearest alternative water source, City of Victoria, and it wouldn't be cost effective and/or affordable for our water system to connect to Victoria.

There are no major stores within 14 miles of Placedo, but bottled water could be acquired in Victoria at the following locations: HEB, Walmart or Sam's Club.

SECTION VIII: VARIANCES

The District Operator or his/her designee, may in writing, grant temporary variance for existing water use otherwise prohibited under this Plan if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or the person requesting such variance and if on or more of the following conditions are met:

- (a) Compliance with this plan cannot be technically accomplished during the duration of the water supply shortage or other condition for which the Plan is in effect.
- (b) Alternative methods can be implemented which will achieve the same level of reduction in water use.

Persons requesting an exemption from the provision of the Plan shall file a petition for variance with the Victoria County Water Control and Improvement District 2 within 5 days after the Plan or a drought response state has been invoked. All petitions for variances shall be reviewed by the District Operator or his/her designee and shall include the following:

- (c) Name and address of petitioner(s)
- (d) Purpose of water use
- (e) Specific provisions of the Plan from which the petitioner is requesting relief
- (f) Description of the relief requested

- (i) Other pertinent information

Variances granted by the Victoria County Water Control and Improvement District 2 shall be subject to the following conditions, unless waived or modified by the District Operator or his/her designee.

- (j) Variances granted shall include a timetable for compliance
- (k) Variances granted shall expire when the Plan is no longer in effect, unless the
The petitioner has failed to meet specified requirements.

No variance shall be retroactive or otherwise justify any violation of this Plan prior to the issuance of variance.

CLOSING STATEMENTS

Residents/Customers of Victoria County Water Control and Improvement District 2, implementation of the Drought Contingency Plan is to ensure that all residents/customers have a safer and adequate water supply for everyone's basic water needs. This program is not intended to alarm you but solely to educate you that emergency conditions can arise by mechanical or catastrophic weather conditions. This plan is to prepare residents/customers for such a problem if it should occur. With everyone working together, Victoria County Water Control and Improvement District 2 can implement and sustain safe drinking water for everyone.

Sincerely,

Board of Directors
Victoria County Water Control
And Improvement District 2
